2014/4930/P	Katherine McAndrew & Dafydd Rees	7 Ingham Road London	07/09/2014 13:05:41	OBJ	<p>As neighbours backing on to 47 Burrard Road we have concerns relating to light and privacy from the proposed development of the loft space.</p> <p>(We realise there is a separate application for the roof space but there is no ability to make comments.)</p> <p>The size of the loft development is considerably bigger than the one next door.</p> <p>We are concerned that it will block our light from the south, particularly to the ground floor and very small garden; and the large glass windows in the roof space will clearly have an impact on our privacy.</p> <p>We would ask the owners to consider a smaller loft development which would not impede our light or intrude on our privacy.</p> <p>I would be very happy to receive a visit where I could better explain our position.</p>
