

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2014/5443/P	Ana De Pellegrin	Top flat 122 Drummond Street	27/09/2014 10:50:28	SUPPRT	I would like to provide my support to this application as it would make no change to the street scene, but would bring into use a currently vacant space which could be a very welcome addition to Camden's housing stock.

Before moving into my current premises I found there to be a significant shortage of such properties on the rental market and therefore the conversion of the basement at 122 Drummond Street, which would provide a high standard of accommodation for single persons, including key workers on median budgets who wish to live in Camden, is considered highly desirable.

Whilst there are a number of large, newly constructed, high end luxury apartments, these are out of the range of most people's incomes.

I would be grateful if you could register my support accordingly.
