2014/5567/P	Yazhe Li	Flat 1 Harrold House Finchley Road	17/09/2014 15:44:41	COMMNT	<p>1. As the units are studios and 1 beds, I would like to know who are the potential residents live in these units? Are they more likely to be rent out than used by the leaseholders? Are the tenants likely to live in the property only for a short period of time or for long term?</p> <p>2. what are the changes to the 1st floor terrace. Is it still going to be accessible by the residents? I can sometimes see people smoke and hear people talk on the terrace, it is annoying. But if 35 households can access the terrace, it will certainly be worse.</p> <p>3. Currently, there are several ventilation units on the terrace which are noisy. Is there going to be more equipments installed on the terrace?</p> <p>4. How do you plan to insure the safety of neighboring building, as it is easily accessible from the centre height terrace.</p>
