2014/5865/T	A Chandler	Ground floor flat 33 Arlington Road	26/09/2014 07:08:15	OBJ	The trees in our long back gardens must be vigorously protected as they help to provide a habitat for birds, a verdant outlook, privacy and clean air. Recently almost opposite this house (at 71 Arlington Road) a mature ash tree was decimated (and would have been chopped down had they not been stopped). With this application that would be two trees lost within a very short space of time. With the number of sheds being erected, our back gardens are being increasingly built over and vegetation is being lost. This is a tragedy as the landscape in these long back gardens is a defining characteristic of the neighbourhood.
