2014/5900/P	Michael Jarvis	15 Lambourn Close Lady Margaret Road NW5 2NL	24/09/2014 10:10:06	SUPNOT	I should like to register my unequivocal support for this proposal. I have examined the plans, drawings and supporting documents and consider that this proposal provides for a fine redevelopment both architecturally and as beneficial business and residential space for the local area.
2014/5900/P	Gregory	34 Raglan Street	26/09/2014 13:27:09	SUPPEMAIL	I support this application because it is an intelligent response to the site and its history which fulfills planning policy to supply much needed new homes and modern commercial space with no loss of amenity. Please approve it quickly as the site is an eyesore at the moment. Kentish Town needs such investment.
2014/5900/P	Dawn Cox	20 College Lane	29/09/2014 12:18:58	COMMNT	I strongly oppose the demolition of The Castle Public House. It is absolutely underhanded the way the developers have acted, with no regard to the building, flouting the law, making the building unsafe or not fit for repair in order that it should be demolished. That alone should be enough to stop the preposterous idea being raised again by unscrupulous developers. They had been told to put it all back as it was before they ruined it, and that is what should happen.
2014/5900/P	Philip Kemp	20 Jeffreys Street London NW1 9PR	30/09/2014 23:03:54	COMMEMAIL	Good to know Ringleys are proposing to retain the existing façade, but this still seems too radical a proposal. As I understand it, the company removed a lot of original features from the interior without troubling to obtain planning permission. These features should be restored; if the originals have been destroyed, good quality replicas should be used.
2014/5900/P	D Pither	353 Kentish Town Road	22/09/2014 12:29:04	NOBJ	I like the proposed elevation which compliments the street scene well. The old pub has been an eye sore for years and this improvement is most welcome.
2014/5900/P	Gregory	34 Raglan Street	26/09/2014 13:26:51	SUPPEMAIL	I support this application because it is an intelligent response to the site and its history which fulfills planning policy to supply much needed new homes and modern commercial space with no loss of amenity. Please approve it quickly as the site is an eyesore at the moment. Kentish Town needs such investment.
