2014/4834/P	Miss Claire Robinson	1st floor flat 33 Carlingford Road Hampstead London NW3 1RY	10/09/2014 11:20:03	COMMNT	We live at the first floor flat, 33 Carlingford Road and strongly object to the erection of a first floor rear extension with a roof terrace. This would cause a very significant loss of light to our back room at the rear of the property looking out onto the garden. We have young children and the accompanying noise pollution and dust would also cause considerable disruption over a long period.
2014/4834/P	Simon Holmes	Second and Third Floor 33 Carlingford Road London NW3 1RY	18/09/2014 15:49:22	OBJ	<p>I am very concerned about the proposal to have a new outside area / balcony within very close proximity of our Master Bedroom. For your guide our property is a maisonette with the living area on the top floor and the bedrooms on the floor beneath. I object to this proposal on the grounds of privacy and potential noise nuisance.</p> <p>I also am concerned about the scale the construction with respect to disrupting our everyday living especially on the top floor including our roof terrace. There will be obvious high levels of noise including dust and extensive scaffolding and would compromise our living expectations.</p>
