

Dear Camden,

Our address is 30 B Calthorpe St
WC1X 0JZ

We live bang in the heart of the CONSERVATION AREA in half a GRADE 11 listed Georgian Terrace - low lying, with vista and attempts all round to preserve London's beauty. Directly behind us and around is Mount Pleasant. The proposed development of this is very misguided:

I am assuming that Camden is comprehensively aware of the in-depth video put together by Edward Denison?

15 STORIES is just **incomprehensible!** 15 STORIES, even 12 STORIES, even 8 or 6 STORIES is an all consuming assault on the whole surroundings- **light robbing** and **overbearing**.

We wholeheartedly object to the above planning application and believe any development needs to be low-lying.

Edward Denison points to **previous** much more aesthetic and sensible (also **eventually** more profitable for the developers) plans for the re-development of this site!

Yours Sincerely,
Marianne Jacobs-Lim and Conrad Lim
