Your comments on the planning application: The revised plans for the proposals whereby the parapet wall heights are increased are even worse than the previous scheme in relation to the impact the development makes on the nature of the conservation area. The scheme continues to be out of keeping with the surrounding area and of poor architectural quality. Even though the garage doors are being 'retained' the stairs to the upper level have a landing and lobby and so appear to be the first step in the development operating as a separate property. The proposal should be rejected
