Dear Sir / Madam,

Further to my conversation with Mohammed (at the planning department) this morning, I am writing this email to notify and request approval to prune back three trees in my garden.

There are two Lime trees and one Copper Beech tree.

The Lime trees require reduction of the crown and in height. The Copper Beech requires reduction in Crown, this tree has branches that have grown into the garden of 174 GT.

Please find attached two photos and a sketch of the garden outlining layout.

I look forward to hearing from you with regard to any further comments or observations.

Kind regards,  
Rajesh

Attached.
