

Dear Mr Thuairé,

ref: Planning Application 2013/7242/P (Athlone House, Highgate, N6)

Please record my very strongest OBJECTION to this planning application - the latest in a very long saga. I thought the main house had been saved many years ago when previous applications were turned down and the developers agreed to keep it - the fight then was I think about the gardens and surrounding buildings.

I have lived in Highgate since 1969 - 44 years, and am horrified that we have to keep objecting to defend one of Highgate and the Heath's most iconic buildings dominating the skyline.

Sensitive conversion keeping the essence of main building back to a hospital or convalescent home as it was before, or to a hotel, or even to private flats, are the developments needed to restore and keep this
