

I support the application (please state reasons below)
I object to the application (please state reasons below)

Your comments

The existing home blends harmoniously with its setting, in style and materials. The proposed building occupies a larger footprint, is bulkier and higher than the existing home. Its modern style and materials will be obtrusive, and cause loss of amenity - destroying a historic view. Construction will be a noise and traffic and parking issue.

General enquiry form - Ref. 9049601

My enquiry is

application ref: 2013/7242/P
Planning application Athlone House

It has come to my attention about the above planning application.
I want to appeal
the development for the following reasons:-
-from the Heath the house is a beauty and in keeping with the setting. A new development, it will never be in keeping with the setting/area.
-the area is being flooded with new developments- Highgate School, Caen House,
-more traffic to Hampstead Lane, which is controlled by Haringey (well that says it all!!), the imposed CPZ has caused Camden Residents such inconvenience, without any consideration to how people have to live with daily duties, of shopping, deliveries, relatives trying to visit their family. A disgrace.

-Highgate is a village with charm, character, Athlone House is in keeping with area.

I would like to be contacted by

eMail
