Subject: Planning Application 2013/7242/P - Athlone House
Categories: Orange Category

The security and secrecy which has surrounded this house for years has made challenging the relentless campaigns of the developers much worse.

Athlone House is an asset to the Highgate Conservation Area: may I remind you that the original planning application was permitted **on condition that the House was restored and made into living accommodation?**

The developers treat the planning system and Camden Council with disdain and contempt. I attended the last appeal and read the conclusions of the inspector. It is so depressing that, once again, the developers present the same sort of plan.

They should be compelled to comply with the original terms of their planning permission.
