

Dear Sir/Madam

Application Ref : 2013/724/p

I am most concerned that Athlone House is under threat yet again.

I can only reinforce what I said the last time I wrote in to view my opinions about this subject.

Athlon House is seen from many places on Hampstead Heath and sits very well in the landscape. I don't believe the proposed new building will be even half as successful as the building that is there at present.

What is more the proposal goes against the original agreement, as we all know.

Kenwood House has been renovated at great expense and care with the environment in mind, why should this not be the case for Athlone House. It seems that profit is the only motive in this case.

My neighbor was unable to get planning permission to replace a rotten wooden door with a UPVC door in a place where no body can see it from anywhere. It would be a disgrace if this plan is passed.

Yours sincerely,

Dear Sir,

I read in the Ham and High that an application has been made by a developer to demolish Athlone House and I write to register my objection.

Athlone House is very much a part of Hampstead Heath, it should be protected in the same way as other parts of the heath.

For a developer to gain the benefit of a new development then try to weedle its way out of its obligation to restore Athlone House is, frankly, disgraceful behavior.

I trust you will reject this application on behalf of everyone who uses the heath and values its heritage.

Yours sincerely,
