

Site application address: 14 Templewood Avenue, London NW3 7XA
Application ref: 2013/6912/P (Assoc. ref: 2013/2223/PRE & 2013/6973/L)

Dear Miheer Mehta,

We are happy for number 14 to be turned back into a single dwelling house however, as with previous applications, we are very concerned about the scale of the underground space being created and the effect that this could have on ground water levels, etc.

I think that the property should keep closer within the existing building lines and as with most properties have a single level basement/lower ground.

Therefore we object to the current application.

With kind regards,
