dear Planning,

like many others i am concerned about proposed changes to leeder house .

not only losing the activities within the building but the affect on the conservation area and the loss of users to the area will alter the viability of many of the other local businesses.

i hope you reconsider .

i am just an occasional visitor ( live in islington ) and it greatly saddens me to think how unkind, greedy decisions are being made so hastily which can change the heart of an area .
