Please describe the proposed development, including relevant information covering transport and highways impacts of the development; contamination risks on the site; and flooding risks on the site.

Conversion of a ground floor office unit (B1a) to a single family 3 bedroom (2x double and 1x single) flat (C3).

The site has most recently had 6 members of permanent staff, all using cars for transport and often business visitors and does not benefit from off street parking. Business parking permits were previously granted. The new flat will undoubtedly represent a reduction in parking usage.

The site is not on land at risk of contamination.

The site is not within a flood risk zone.

If the building was not in use immediately before 30th May 2013, when was it last in use?  Date (DD/MM/YYYY)

What was the use of the building immediately before 30th May 2013 or the last use before that date?

Office B1a
