Change of use from B1(a) use to 9X3 bedroom dwelling houses (C3)

TfL is concerned with any application which could have an impact on the transport networks. Having reviewed the application TfL has no problems in principle. There was no mention of cycle parking and TfL would expect that 2 cycle spaces per unit would be provided and these together with their locations would need to be subject to a planning condition.

If the is included TfL would have no objection to this application

Please do not hesitate to contact me if further information is required.

Kind regards
