

I am writing to you with regard to application reference: 2013/5200/P; concerning the proposed planning consent to construct 15 bedrooms at the Hospital Club, 24 Endell Street, London Wc2H 9HQ.

I live and work in Camden and wish to express my full support of the proposal.

Having also been a regular visitor to The Hospital Club I am confident that their plans will cause minimal or no disruption to my local community and the new facilities will continue to benefit the surroundings including the addition of a further eight jobs in the area which is only to be commended and supported.
