

06/10/2013

I sent my comments to you regarding the application listed above. I am the owner of 50 Coity rd, the building next to where the works are taking place. I am enquiring as to the outcome of the planning application , and as to whether any of my comments were taken into account , particularly those regarding the size of the windows in the newly proposed kitchen area for the new extension. Currently the "proposed" extension next door has been completed and the lintels are in place for the new windows , which seem to occupy most of the room's width . This means that while I sit in my basement eating or watching tv, anybody using the kitchen area in the proposed new extension can see directly into my living space. I find this uncomfortable , and wanted to know if the outcome of the application had been decided.

Please could you advise the situation,
