Dear Sirs,

I am lodging a formal objection to the proposed change of use at Leeder House, 6 Erskine Rd. As a 40 plus year resident of Primrose Hill I have always greatly valued the diversity of building uses in the area. This has provided local residents with the opportunity to set up businesses close to their homes, and it also ensures a lively mix of daytime activities - the Triyoga studio on the above site is an excellent example. These activities also bring people into the area and this helps support local shops and restaurants at a time when local high streets are under increasing threat.

I urge the Planning Committee to reject this application. Loss of commercial space at 6 Erskine Rd to housing would be a tragedy for the area and would be a further step towards turning Primrose Hill into an over-priced residential ghetto.
