

To whom it may concern.

I am an employee who works full time within the vicinity of 6 Erskine Road. I also live nearby. The nature of Primrose Hill Village is very different during the day to that at the weekends- during the week the village is a thriving diverse community of local businesses and services all supporting each other. Whether its the cafe's or the shops- it is the people who work in the area who sustain its business life during the week. And their custom is highly valued as seen in the local discounts offered to workers whether it is in Prim the nail salon or Privato the hairdressers. If you were to remove such a substantial number of business units at the above address it would have financial repercussions for the whole of the high street. Shops and services would become under utilised and may subsequently close, much to the detriment of the feel and diversity of the whole area. It is in the best interest of all for the existing diversity and mixed use nature of the area must remain. I object to the proposals very strongly.

Regards,
