

Flag Status: Orange

Dear Planning committee,

I am writing to object to the potential loss of triyoga in Primrose Hill.

Triyoga came to Primrose Hill about 13 years ago. We are blessed when a business nestles into a community in such a way that it instantly is a part of the fabric of the Village.

Triyoga offers the inhabitants of Primrose Hill a multitude of services, all of which are fully utilized. Not only that, the clients to Triyoga spend more time in the village than they might otherwise and become paying customers to the business' on the high street. Triyoga is good for the people and the business's of our community. This in itself is something to the commended and retained.

I understand that the site is part of the Primrose Hill Conservation Area. The role and place of the Conservation Area has been too often overlooked by the Camden planners leaving us all with a sense of futility when looking to our local government for long range protection and planning.

The usage of the site, as it is now, compliments Primrose Hill. If small to medium business's are allowed to continue there who knows, another jewel may appear to make us all proud to not only live in Primrose Hill but in an area where the planners listen and follow the direction of their constituents.
