

Subject: Proposed Loss of Triyoga: reference 2013/6326/P

I am writing re the change of use of of Triyoga, Primrose Hill.

If the buildings that are currently used for business are turned into housing, there will not be amenities for local residents and visitors. Leeder House and the other adjoining units, including Triyoga, are suitable for continued use as business properties, and in that case should be protected by policy DP13.

The site is part of the Primrose Hill Conservation Area and a change of use and the proposed alterations are totally out of keeping with the character and appearance of this Conservation Area.

Local employment will be lost, as users of Triyoga use the high street. The restaurants, cafes and shops will be affected and Camden planners should take this into account in any decision that they make. This is another step in changing the character of this unusual conservation area.
