

Dear Council

I'm writing to express my great concern at the proposed development at Leeder house, firstly because it's part of the Primrose Hill conservation area, and as thus the other units and Leeder House are suitable for continued business use and should be protected as indicated by policy DP13.

The changes will destroy the aesthetic and character of Primrose Hill. As a Camden resident I'm not sure why you would want to take away the livelihood of businesses and community!

I would urge you to take a comprehensive approach to the development of all buildings at 6 Erskine Rd so the impacts are understood- such as loss of employment and the affect on the trade and community.
