Proposal: New ground floor rear extension and infill of existing lower ground floor courtyard, reinstatement of former lower ground floor courtyard and other associated hard landscaping works at ground floor level to include new terrace to eastern side.

It is unfortunate that the small garden allocated to the flat is greatly taken up by the new extension and hard landscaping, especially as the apparent ground area around the whole block seems minimal. Such things as infilling a permitted lightwell should not be encouraged. We question whether the green roof is of the sedum type, or whether it is a living roof which would support biodiversity.
