I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

These trees provide a beautiful outlook for us and neighbouring properties and encourage an array of wildlife to the conservation area. They also help maintain privacy. We do not object to healthy pruning & maintenance but do object to felling 4 large trees for no good reason. The conservation area is just that & therefore trees should be conserved wherever possible. We would be overlooked without them too, which is a secondary, albeit important & relevant objection.
