I object to the application (please state reasons below)

Your comments

I would appreciate clarification with regard to proposed building work ^{possibly} due to commence at 18-20 Elsworthy Road which is opposite my address.

That a competent and experienced site management has been engaged, to control noise and waste removal and ensure that no work takes place outside the delegated hours.

That any amendments to the approved plans during the works are notified to myself in advance of amended works being commenced.

Once the building is finished and occupied I am not clear what provision has been made to Garage the new residents cars as I understand that Camden Council will not issue parking permits to new buildings - is this the case for 18-20 Elsworthy Rd?
