Application for tree works: works to trees subject to a tree preservation order (TPO) and/or notification of proposed works to trees in a conservation area.

Town and Country Planning Act 1990

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department,

Please complete using block capitals and black ink.

You must use this form if you are applying for work to trees protected by a tree preservation order (TPO). (You may also use it to give notice of works to trees in a conservation area).

t is important that you read the accompanying guidance notes before filling in the form. Without the correct information, your application notice cannot proceed.

(see Question 8)

Have you:

stated reasons for the proposed works?

· provided evidence in support of the stated reasons? in particular:

A full and clear specification of the works to be carried out

 if your reasons relate to the condition of the tree(s) - written evidence from an appropriate expert

if you are alleging subsidence damage - a report by an appropriate engineer or surveyor and one from an arboriculturist.
 in respect of other structural damage - written technical evidence.

included all other information listed in Question 8?

10. Declaration - Trees

I/we hereby apply for consent/give notice for tree work as described in this form and the accompanying plans and additional information.

15th August 2014

Kevin Powell Head Gardener Crown Estate Paving Commission 12 Park Square East Regent's Park London NWI 4LH

Dear Mr Powell

Chester Close South Garden

The matter of the Yew trees and in particular the English Yew planted right up against the wall at the northern end of the Close was raised again at the Board Meeting of Chester Close Residents' Company held on 4th August.

It is no longer tolerable that these trees should dominate, and overshadow, the end of the Close and intrude into the Close and seriously obstruct daylight into the flats on the west side of the Close and in particular Flat Numbers 55 and 57.

The normal hedge clipping which has been executed in recent years has been completely ineffective.

Personally I doubt that the planting of these trees was ever appropriate fot this location and should not have been permitted at that time.

We should be pleased if you could take such action that would provide a long-term solution to the problem. I should be delighted, with Mrs Watson, to attend any such meeting as may be necessary for the matter to be discussed, and a solution to be found, and arrange for a visit to the two flats to demonstrate how badly affected they are.

I look forward to hearing from you.

Yours sincerely

(R N Strathon-Chairman Chester Close South Residents' Company Ltd)

55 Chester Close South London NW1 4JG

Mr Kevin Powell Head Gardener Crown Estate Paving Commission 12 Park Square East Regent's Park London NW1 4LH 1 9 AUG 2014

Dear Mr Powell.

Yew Trees at Chester Close South

Once again we feel that we need to contact you with regard to the yew trees along the wall at the far end of the Close and, in particular, the largest one which is directly outside our living room window. The tree grows wider each year and now extends over halfway across our window blocking out a considerable amount of light. Even the recent trimming of the tree had no effect on the light getting through to our room.

We do appreciate that any vigorous pruning of the tree would make it unsightly and suggest that the best solution to the problem would be for the tree to be replaced by some more suitable and sympathetic planting.

We should be most grateful if this matter could be given serious consideration as our flat gets gloomier and gloomier with every year. The yew trees are not an attractive feature of the Close and we feel that a scheme which not only gives our flat more daylight, but also makes for an attractive planted area along the end wall would be generally welcomed.

Yours sincerely.

David and Sheila Hockman.
