The above development will lead to the closure of Triyoga which affects me personally as a full time Triyoga employee. If Triyoga closes, I am highly at risk of losing my job. With the current economical climate, this is very concerning.

Before working at Triyoga, I have a been a regual user of all their services which I have always greatly enjoyed and benefitted from. The thought of not being able to do so saddens me. It is a shame that such a great asset to the local community (and beyond) is taken away.

No doubt the local businesses will also feel the negative effect of the Triyoga closing considering the large number of visitors that Triyoga attracts from all over London.
