Dear planning team,

I am writing to express my strong opposition to the planning application 2013/6326/P.

The area which is considered for planning is one of the most wonderful, and few remaining open plan building areas in London. It would be a great shame to see this disappearing.

The proposed development will impact the local community by removing business such as Triyoga (for which I personally mostly interested), which is a venue renowned health and yoga centre in the whole Europe. Seeing Triyoga loosing the present venue would have a detrimental effect to both residents and to local businesses, many of who rely very much on the thousands of Triyoga customers.

I hope the call for all those who passionately oppose the proposed buildings in the application is heard.

Regards,
