Dear Camden Planning Dept,

I am writing concerning 2013/6326/P and the plans for redevelopment of the TriYoga site in Primrose Hill. It is a pivotal time where *everyone* in London knows that residential use for buildings is of top value but there is something far greater called community value which is what TriYoga represents. Not only is it a place to make people happier and healthier it attracts people from all round the world to Primrose Hill and elevates the whole community.

If you were to do a pioneering thing which said no, we will save Triyoga from the proposed developments you as planners would get a high regard and press all over the world, doing the right thing and holding on to places of Value within communities.

Yours,

[REDACTED]
