Hello,

I would like to express my huge disappointment and dismay at the news the the Triyoga centre in Erskine Road, Primrose Hill, may be forced to close due to redevelopment of the site from commercial to residential spaces by the landlord.

I have been going to Triyoga for the last 5 years and it offers the local and wider community a tremendous resource for self development - I live in west London yet still travel to the centre. The centre allows a yoga community to grow and this is only a force of good for society in general.

I urge you to refuse the application so that the centre can remain intact.

Regards
