They have already extended their kitchen, extended the height of their office (the bit the projects sit at first floor height) and erected a balcony at first floor. These alterations have increased light pollution much more than I could have imagined and decreased my privacy very much. They have extended their trees into my home. An additional floor atop of the extension will crowd us out even more, & darken + tower over us. There is also a rowan tree in their back yard that is dying because of the building work they have put round its trunk. Its roots are, because of this, coming up thru my concrete backyard in an effort to get oxygen. More extension will diminish the nature of

Please continue on extra sheets if you wish

the backyards and lower any potential selling price of my property.
