Application Ref: 2013/5369/P by post and online

Dear Miss Quigley,

Planning Application 2013/5369/P

I wish to object to the variation of conditions point 13 loading and unloading of the planning permission granted 26/07/1996 ref 9501970R6, based on the fact that I believe that I will be unreasonably be affected by the increased noise generated by the deliveries being undertaken between 6am and 8am 7 days a week. I have no objection to the evening deliveries

I see from the planning documentation that an environmental noise survey was carried out for a period of less than 24 hours during a mid week, surely to gain a realistic picture of the noise situation, the period of time should have been extended to include the weekend, as the level of ambient noise between 6am and 8am on both Saturday and Sunday is much less than 6am to 8am on a Friday in August, when incidentally traffic within the area is much lighter than normal due to holidays.

I urge you to reject these delivery time changes, and request that Waitrose perform a week long noise survey to determine the ambient noise levels during a normal week and weekend
