**Flag Status:** Orange

Dear Mr Nichols,

As long time resident of Belsize Park, first in Primrose Gardens and more recently at the address below, I should like to put in an objection please to the above application.

I realise that the Council is very keen to preserve trees, keep the area a nice place in which to live, etc, and it seems to me a very bad idea unreasonably to increase the number of people living in it.

There is a further and arguably more important point that I should have thought the above application would anyway obviously detract enormously from the light and other amenities of the immediate neighbours. I hope therefore that the Council planners will decide to reject it.

Yours sincerely,

Ardon Lyon
