

Dear Sirs,

I write in support of the above application. As a (very) local resident I can confirm that the Hospital Club conduct themselves with the upmost professionalism and go out of their way to prevent noise and inconvenience to their neighbours. I have always been impressed by the cheerful helpful demeanour of their doormen and front-of-house staff and have especially appreciated how they encourage people arriving and leaving the club to do so with the minimum of noise and disruption. I wish all our commercial and private neighbours would extend the same consideration.

I wholeheartedly support this application.

Kind regards

Philip Nash
