

Dear Sir, Madam

I support the application but I have a further request.

The base of this tree is touching the boundary between 99 and 97 South Hill Park.
Its roots stretch under the front garden at 97 South Hill Park and possibly also underneath
the building and front steps.

Rather than simply fell to ground level the stump needs to be ground and removed as well.
Please would you add this to the conditions?

Many thanks
Cherry
