

Dear Sirs,

I am writing on behalf of my husband and myself to submit our objections to the proposed plans for 11 Richborough Rd. Richborough Rd is a small road with a strong community spirit and consists primarily of family houses. To convert this house into 6 bedsits will change the character of the road and put additional pressure on the parking in the road. In speaking to other families who live in Richborough Rd none of us are happy with these plan.

There has already been an issue with no11 Richborough rd as a dwelling was put up in the garden without planning permission. We feel the owners of this house want to install high density living with little consideration for the families who live in the road.

Yours faithfully

Professor Philippa Talmud and Professor Steve Humphries
