I do not object to the presence of a school in the building and I do understand that an empty unit is better occupied than not.

CULTURE & ENVIRONMENT

What I do object to is the use of any of the residents' space being used by the school. The current plans to use the underground car park are utterly ludicrous - There is not enough space for multiple cars to arrive at once - Having the gates open all day is a risk to the safety of our vehicles which we believed to be secure when purchasing them - The traffic in the morning will not accept an influx of buses as it is already very busy with the 328 buses finding it difficult to pass one another - It does not seem at all sensible to have children cated through the building, expecting the teachers to be able to keep an eye out for all of them. To conclude - is this really the most sensible place for a school, or are we compromising the safety of the Children / local area for something that ~~isn't worth~~

Please continue on extra sheets if you wish. "Sort of" ~~good~~. There are far too many questions still unanswered to go ahead.
