To whom it may concern

With regards to the above application, I reside [REDACTED] and did not receive the letter that Camden sent out on 26 June 2013. I was later informed by a neighbour who showed me her copy of the letter and I am writing to voice my concerns about the proposed work. These I believe were also referred to in a letter dated 19th July from various neighbours.

Please ensure I receive any further correspondence as the proposed work will alongside many of my neighbours personally effect my living conditions.

Yours,

Fiorella Busoni
