

Dear Sirs

I refer to your correspondence of the 26th June 2013, as attached. I write to express concern regarding the negative effect which part of this proposed scheme, abated P2 throughout, but specifically within the Internal Daylight, Sunlight and Overshadowing Report published for the applicant by GLA, will have on the rights to light enjoyed by the flats to the east of 22-236 Gray Inn Road. In our opinion, the height and density of this scheme will have a negative impact on the light enjoyed by the occupants and the value of the space. We will consult with our advisors on next steps.

Regards

Titan Wheeler BRICS
