I object to the height of the 15 story building on the corner of Phoenix Place and Mount Pleasant. It will block out the little remaining ^{morning} sunlight and view between the ITN building and Elm House (which is currently empty and not used).

From the plans it is clear that the architects want to make the most of the morning sunlight to benefit the new development by building a 'bank' of buildings along Phoenix Place and blocking out the sunlight to the buildings behind.

I will also be overlooked and I don't see why that particular building (P1) must be the tallest in the entire neighbourhood.
