Subject: Application reference number 2013/3807/P

To whom it may concern:

I am writing to register my concern about the planned redevelopment of the Mount Pleasant site, reference number above.

I am writing in my capacity as a Camden resident and Council Tax payer, [REDACTED]

I am also Chair of the Mecklenburgh Square residents association.

The association's secretary, Tony Dykes, will be writing on behalf of the association, registering a broader concern of the local inhabitants.

Our concern is not about the principle of redevelopment of a site that has been empty for some years, but the scale. Plans for buildings of up to 15 storeys seem unsustainable, both environmentally, for transport facilities and in terms of population density.

The proposals coincide with a number of developments in the close area, which, as they currently appear to us, will put an extreme strain on the local vicinity.

We will be monitoring the process closely.

Yours sincerely
