Your comments

As a resident of the subject building I am highly supportive of the current proposals.

The building is an eye sore and the works to the entrance a series of gates will add cohesion to the architecture, which has been neglected for decades, will enhance the entry view of the car port and this area from Primrose Hill and will improve the building security which is a serious concern to residents.

The choice of materials is sympathetic to the building and will naturally heighten the appearance of an otherwise ugly project.

Sincerely,  

Please continue on extra sheets if you wish
