Dear Ms Shepherd,

Objection to application ref: 2013/2446/P

I object to this application for the following reasons:

I have had no previous consultation or notification of this project from my landlord; the doors and windows are currently in good repair, only one bay window frame needs repair; the projected major building work would be very disruptive to me, I would have to move out and it would presumably lead to an increase in rent (I am on housing benefit); there are more urgent repairs to be done inside this flat and in the garden; part of the garden wall collapsed two years ago, leaving a heap of bricks and rubble, it is a health and safety risk.

yours sincerely  
B.S.Duncan [REDACTED]
