Dear Miheer,

**Objection to 2013/2506/P 9 Belsize Park Mews (BPM)**

Firstly and for the sake of clarity I live at 13 Belsize Crescent one of the properties most affected by this application that said can I firstly take you through the above jpg's, due to the size of the attachments I will send a further second email.

Q10 Is roof top view of 9 BPM facing the rear of properties on Daleham Mews, you will note that due to the low height privacy screen this will lead to an increase the sense of enclosure and of overlooking and lead to a greater sense of enclosure as BPM narrows at its cul de sac end to only 3 or so metres to windows of 13, 11, and some extent number 9 Daleham Mews

Q13 Shows the shadow cast by the current roof level onto the rear of number 13 time circa 1-30 pm 19<sup>th</sup> Feb 2013 any increase in height of 9 BPM will remove light and sunlight from the house and garden.

Q15 Speaks for itself increased height in BPM obliterates sunlight.

Q18 Taken from the upper windows of 13 Belsize Crescent shows the maximum sunlight to the rear of the property and the shadow cast by BPM.

Regards

Chris Knight
