Dear Sir/Madam,

I am writing to you about the planning consultation on the extension of existing flues to each residential unit within Campde House, Harrold House, Hickes House and Noel House.

After reviewing the planning application, I have doubt on the position of the boiler flue outlet. We need more details of the complete proposition of the work and looking into the feasibility and economy of the proposition. For one thing, the boiler cannot be put on the other side of the wall where there is water main, at least in our flat.

Kind regards,

[REDACTED]
