Your comments: Our concerns about this application are as follows:

- * loss of our land due to current plan crossing the party-wall boundary on our side. Party-wall agreement has still to be officially sought and agreed
- * Possible water damage caused by the rainfall, due to the design of the glass conservatory roof sloping towards our shared back wall.
- * possible impact of the height point of the side wall and conservatory posing impacting on light, privacy and view from upper ground floor back windows
- * If the council's conservation building regulations are altered to we have no other objections to this application
