I object to the planning application for the same reasons as I did to the previous application and for the reasons that the previous application was rejected.

I have used the Black Cap as a social venue since moving to the area in 1982. It is the only gay, lesbian pub left in North/NW London. It is important in my social life as I have long-standing friends who use it and I feel unthreatened in it. The application would result in its obliteration as a pub at first floor level.

While there is a cabaret bar on the ground floor which will remain it is quite unsuitable as a 'pub' being very noisy at nights and having no natural daylight.

The reasons it was previously rejected were because it is a valuable community resource. The application requested the bar, the first floor as a pub which is a quite noisy environment than the cabaret bar ^{bar} ~~it~~ would be detrimental to the gay and lesbian community as a key meeting place. These reasons apply to the current application.
