Name..... Rohat Cellali-SIK

Planning application number..... 2013/2630/P

Planning application address..... Twyman House, 31-39 Camden Road, NW1 9LR

I support the application (please state reasons below) I object to the application (please state reasons below)

Your comments

I am surprised to receive this application letter from yourselves after the structure of this development has already been erected! I question whether Camden really cares about any sensible objections. Personally, I am not against sensible/considerate redevelopment as long as it does not reduce light to neighbouring properties and become featureless, or too high. This structure, looks too high and has destroyed the traditional look of the area for the sake of profit! It is sad.

I hope that Camden council respects and protects local views and environments from future high-rise development applications. Personally, I never want to see this wonderful area turn into a scene from Canary Wharf. This is Camden Town - protect it.

Thank you.
